CHICAGO BOY FOUND: BANKERS SON KIDNAPED

Serums Asked As Agents Of Relief Care For Injured

(BY UNITED PRESS)

The Atlantic coast from the Virginia Capes to Atlantic City was braced tonight to meet the predicted onslaught of a tropical storm which crashed north and east from Florida, leaving disaster in its wake.

Shattered lines of communication made accurate estimates of the death toll impossible but late advices from Florida indicated the possibility that as many as 100 may have lost their lives in the state. Property damage in Florida apparently will run into many millions of dollars.

If the estimate of 100 deaths in Florida is found to be accurate, it is likely that the total death toll of the hurricane may reach as high as 800 for 500 already have been reported dead in the French West Indies and 200 more in Porto Rico.

DISEASE THREATENS
San Jose officials welcomed an appeal for anti-tetanus serum today. Many of those receiving treatment at emergency stations became infected by stepping on nails protruding from wreckage which were strewn about the street until this morning.

A sundown curfew order was issued by Chief of Police F. H. Matthews of West Palm Beach to continue in effect until danger of looting has passed. People entering Palm Beach by the only remaining viaduct over the lake must show they reside there or present a pass.

Disease threatened to add to the disaster in the West Indies

where a courageous people worked to bring a semblance of order out of confusion.

Official announcements by the weather bureau in Washington said the storm was centered on the South Carolina coast in mid-afternoon and would advance to the Virginia Capes, late Tuesday or early Wednesday. Warnings for "Whole Gale" (slightly below hurricane) were issued for that region as far north as Atlantic City.

High seas will accompany the wind as it passes between Hatteras, N. C., and Cape Hatteras late Tuesday night. It was expected.

MARTIAL LAW

Part of Florida was under martial law to facilitate relief work as the hurricane swept on to the north. Striking the coast in a wide path south of Daytona beach, the wind raced toward the interior, across Lake Okechobee and turned north up the center of the peninsula.

All shipping lines were paralyzed and as many vessels as possible were held in harbor.

The relief work has been speedy and thorough. Already victims of the storm are being cared for in every way possible while communication is only partly restored.

MERCHANTS IN FALL FASHION WEEK DISPLAY

The autumn season is being ushered in by Richmond merchants with a fashion display of fall styles that will find response in even the most exacting buyer. The special features of the occasion are getting in full swing this morning with announcements in the RECORD-HERALD by the leading merchants. The event will continue throughout the remainder of the week, ending on Saturday night. Although the special displays are to be concluded Saturday, it will by no means end the bargains in high class commodities that are being offered for the fall season.

Attractive window displays have been arranged in such a manner so that all types may find the made which fits their own peculiar style. In several instances living models will be used to show off the styles to the best advantage.

Residents of Richmond are urged by the merchants to take advantage of the special display and get a peek at the new styles that have been dictated for the fall season by Dame Fashion. And the windows and advertisements in the RECORD-HERALD are only indicators of what may be found on the well-stocked shelves of Richmond merchants. No pains have been spared to offer local residents a complete selection in all the latest styles.

COUNTY EXHIBIT AT STATE FAIR DISPLAYED IN BANK WINDOW

Evidence of the success of Contra Costa county's exhibit at the 1928 state fair in Sacramento may now be seen in the Tenth and Macdonald avenue windows of the American Trust company. Reproduction of the two booths which represented the county, together with the ribbon won as premiums and sweepstakes are shown.

The exhibit designed by Guy F. Spencer of Walnut Creek representing "Contra Costa, the Balanced County," proved to be spectacular with its large scales rising by electrical means, miniature industrial plants in one pan and small farms in the other.

Lights on the relief map near the scales indicated the source of various agricultural products. Industrial plants were located by lights on the map as well. The balance between industry and agriculture was also indicated by placards showing the number employed in industries in the county as 17,424, and the annual payroll totaling \$29,854,159. Employees in agriculture are 17,572 and the valuation farms \$39,450,000.

The county exhibit included examples of famous Contra Costa county farm products and recording industrial progress.

A record of 52 premiums and three sweepstakes was attained this year by the combined exhibits. To the county goes first sweepstakes on apples, second on apricots and third on pears. First premiums totaled 17, second, 19 and third 13.

The display in the American Trust company's bank on Macdonald avenue will remain for 19 days and will then be exhibited throughout the county including Martinez, Concord, Buron and Pittsburg.

George Upham was chairman of arrangements for the county.

With the plane fully loaded for the flight and poised at the head of the runway today, Capt. Cesare Sabelli, who is in command of the flight, announced that a cross wind, blowing from the north, made a take-off hazardous.

Previously fog and then a high tide prevented Sabelli and his three companions, Robert C. Williams, co-pilot; Pierre Bonelli, radio operator, and navigator, and Dr. L. M. Pisculli, financial backer, from starting the 5000 mile flight.

Sabelli said tonight he hopes to be able to make another attempt to take off between 10 a. m. and 11 a. m. Wednesday.

UKIAH, Sept. 18.—(U.P.)—Officials here today investigated reports that the jealousy of several small boys caused them to partially cut a control wire of the airplane in which Robert Stambaugh, aviator was injured and Cecil Wright, a school boy burned to death last week.

Ingvald Sagerskog, Sacramento flier examined the plane wreckage and said he found one of the control wires had been partially severed, by pliers.

A local business man is quoted as telling the sheriff two small boys warned Cecil not to go up with Stambaugh.

It is the theory that the boys believed Stambaugh favored Cecil by allowing him to polish parts of the airplane and gave him liberties he withheld from other boys.

He was found guilty of attacking and wounding James C. McIlree, Jr., of Oakland with a knife in an affray in Rodeo a year ago.

HOOVER MEANS GOOD TIMES

For the American business man, tradesman and workman, the candidacy of Herbert Hoover for President offers the best insurance policy for the continuance of good times the republican party or any party could give to the people of the United States. As Secretary of Commerce for the past seven years, Herbert Hoover has stood steadfast at the right hand of Coolidge in piloting the American business to safe harbors of progress and prosperity. Like Coolidge, he has been an apostle of the republican protective tariff in its manifold workings to increase and multiply American business, fatten pay envelopes and raise higher and better the American standard of good living and the welfare of the people.

Hoover in the Department of Commerce has been the very monitor of good times. So far as any department or branch of the national government could go in helpful constructive assistance, Hoover has gone. Free of political quarrels and motives, safe and sound, with a heart and brain intent on the quickening of government service to the service of the people, Hoover has moved, in calm and in storm, serenely along promoting good business and good times.

The great genius and uniring industry of Hoover have stimulated and helped thousands of enterprises. A national canvass would be necessary to show fully the breadth and depth of Hoover's good works, for the pent-up Washington office has confined his talents. His beneficent genius has sped into every community and state in the Union and sent the flag of American commerce into new ports in strange seas.

Hoover has discovered and made useful new methods and new markets for American production. He has been the supplement and reinforcement of the protective tariff. In helping business to help itself he has been a mighty adjunct in the good works of the Coolidge administration. Not by voice alone but by example, not a mere preacher but a doer, he has shown the American manufacturer and the trader the road to business expansion and success that carries on into happy homes and contented lives.

The notification speeches of the various candidates are a good deal like the opening address which lawyers make to the jury.

Frank H. Simmons, noted writer of international politics, says that Europe is opposed to the election of Mr. Hoover because it feels he would not be in favor of cutting down the European debts. It is doubtful whether Mr. Hoover's views on this subject will lose him many votes where the votes count.

AND THE WORST IS YET TO COME

BEAUTY

Dear Miss Lane,
Is liquid powder harmful for the skin? I have been using it for my arms and neck for evening but everyone tells me it clogs up pores and causes skin trouble. DELE.

I see no reason why liquid powder should cause any skin trouble. If a good make is used and if you are careful to remove it before retiring. If applied smoothly it will give the arms and neck a lovely smooth texture and should not rub off.

Dear Miss Lane,
Would you please tell me how to give myself a hair oil shampoo? Will it help falling dry hair? MARY L.

If done conscientiously and thoroughly, hot oil shampoos should do much to make dry falling hair healthy and lustrous.

Heat either white mineral oil or olive oil (some women use equal parts of both) and rub it into the scalp with the fingertips or with a small stiff brush. Be sure that you have covered your entire head and then wrap a hot towel around your head and leave it on for an hour or so before your shampoo. Massage the scalp briskly before rinsing out the oil.

Do you brush your hair thoroughly every day. Constant use of your brush (which, of course, is kept thoroughly clean) will do much to improve the appearance of your hair.

TOO SMART

MANY of the new frocks (or fall have a combination of two or more materials, especially for sport wear. This little frock was seen at the polo matches. Of jersey and tweed, the blouse of beige jersey trimmed with brown and it had a smart collar-like smart which tied at the one side. The skirt was of tweed, on the beige shades, the side pleat lined with the brown jersey. With this was worn a beige felt hat, tucked up over one eye and down at the sides.

The NEW BUICK
is the NEW STYLE

A triumph in individual beauty... a refreshing and radical departure from the tiresome commonplace... a new style, a richer style, a more alluring style than the world has ever known!

Only one completely new motor car style in the past twenty-four months—only one truly original and beautiful development in body design—and, as the whole world realizes, it is the Silver Anniversary Buick with Masterpiece Bodies by Fisher! Here is an entirely new scheme of body lines and contours—creating new color combinations—matching new interiors—new appointments of comfort and convenience unsurpassed by any other automobile of the day! Here is a true distinction wedded to a genuine good taste. Here is a new style—a richer style—a more alluring style—than the motor world has ever known. And here, too, is a tremendous increase in power, in flexibility, in responsiveness—so outstanding as to amaze even those motorists who have long been familiar with Buick's superior performance. That is why America is according the Silver Anniversary Buick the most enthusiastic reception ever enjoyed by any fine car. That is the beautiful new Buick has become a country-wide vogue!

COUNTY PLANS TO ELIMINATE BAD CURVES

County Surveyor R. R. Arnold has been instructed by the board of supervisors to prepare plans and specifications for the elimination of three right-angled turns on the Oakley-Brentwood highway. Two of the curves are near Oakley and the third near Brentwood. The curves have been the scenes of numerous automobile accidents in the past.

The supervisors also authorized the paving of a strip of the Franklin canyon highway, beneath the Christie crossing viaduct. Short stretches of the Danville-Alamo highway were also ordered paved as was the Trembath bridge near Brentwood. All of the jobs are to be included in one contract.

FERRY ABANDONED

Contra Costa board of supervisors Monday granted permission to the Rodeo-Vallejo Ferry company to abandon its franchise for the operation of a ferry system between Contra Costa and Solano counties. The company abandoned the service with the completion of the Carquinez bridge.

Parental Control Charged By Wife In Divorce Plea

Attempts of her husband to establish "parental control" over her are charged in a complaint for divorce filed in Martinez yesterday by Mrs. Thelma E. Howell of Richmond against Earl L. Howell, whom she married in 1927.

Mrs. Howell charges that her husband refused to permit her to attend dances or other places of amusement and told her that he "does not trust her out of his sight." She also charges that her husband remains away from home late at night.

The couple, according to the complaint, separated on September 6. Tsar N. Calfee represents Mrs. Howell.

Moral Conditions Of World Better Lions Den Told

Drawing his inspiration from the "Fifteen Years After" banquet recently held in Oakland where social workers met to compare notes, Larry Moore of Oakland, addressed the members of the Richmond Lions club in the Hotel Carquinez yesterday. Moore compared social and moral lines of today with those of fifteen years ago and declared that conditions of today showed considerable betterment.

William Darrell and Errol Lane were received as new members. Carl Overna was chairman of the day. Violin solos were presented by T. G. Brashear with Miss Bernice Mills as accompanist.

Announcement was made by A. C. Faris, secretary, that on Oct. 5, the Richmond den will entertain the veterans in the Livermore home. D. J. Shaw heads the committee. The Lions accepted an invitation from the Rotary club to be their guests Friday noon when Congressman Albert Carter of Oakland will deliver a talk on harbor development.

Following a short vacation Dr. L. G. Cupp, has returned to his offices at 1002 Macdonald avenue.

'APE' YOUTH HUNTED IN BOY'S DEATH

LOS ANGELES, Sept. 18.—(U.P.)—The bloody trail to the Northcott Chicken farm, where an undetermined number of boys are believed to have been abused and slaughtered, grew plainer today.

Discovery of a second bloodstained ax at the farm near Corona marked today's investigation into the story of Sanford Clark, Canadian lad, that Gordon Stewart Northcott, 21, had murdered at least four youths.

Deputy District Attorney Quinn of Riverside county swore to a joint warrant charging Northcott and his mother, Mrs. Louise Northcott, with murder and reports from Canada led to expectations that the pair would be arrested soon.

Young Northcott was described by officials as a veritable "ape boy." His body was said to be covered with thick hair and during his school life he refused to participate in athletic events because of the necessity of disclosing the unusual growth that resembled fur, it was learned.

Besides a gun, of the same calibre as one used to slay a Mexican of Filipino youth, whose headless body was found on a road, and discovery of bones on the farm, police found additional indications of murder, they announced today. An automobile, formerly owned by Northcott, was found in Ontario, the rear compartment was smeared with blood, as was a tire cover, police announced.

Cook Arraigned As Drunk Driver

Gus Vaslos, hotel cook of Napa charged with driving while intoxicated, was arraigned before Justice of the Peace A. H. McKinnon yesterday.

Justice McKinnon is sitting in the absence of Judge A. A. Alstrom.

Complaint was sworn to by E. E. Geiser of Albany who charges that Vaslos forced him off the highway and into the Carquinez bridge. Vaslos was captured after a 12-mile chase by Geiser and State Traffic Officer Charles H. Nissen. Pending preliminary hearing date for which will be set upon the return of Judge Alstrom from his vacation, Vaslos is at liberty on \$500 bail.

Joseph S. Cole Rites Pending

Joseph S. Cole, 77, a native of California, died yesterday morning in the home of his grand-daughter Mrs. Joseph Bouchard, 438 Twenty-second street. The body has been received at the Wilson and Kratzer chapel and funeral services are pending the arrival of relatives from Oregon.

In addition to his grand-daughter, deceased is survived by two sons, Joseph V. Cole of Portland, and Eugene Cole of San Francisco and one daughter, Mrs. Antone Rebello.

Mrs. John R. Wylie Files Divorce Suit

Suit for divorce was filed in Martinez yesterday by Mrs. Frances Wylie of Richmond against John R. Wylie. Mrs. Wylie charges desertion and asks for the custody of two minor children. The couple were married in 1919 according to the complaint which charges that Wylie abandoned his wife in 1924. Clare D. Horner is representing the plaintiff.

Mrs. Braz Undergoes Blood Transfusions

Two blood transfusions have been made in an effort to save the life of Mrs. John Braz, 1217 Barrett avenue, who is reported seriously ill in the Humboldt hospital, Albany. The blood was supplied by her sister, Mrs. May Mathos and her brother, William D. Silva. Mrs. Braz recently underwent an operation in this city.

MISS GENZEL RETURNS Mrs. Emma Genzel, 573 Dimm avenue, Richmond, after a month's vacation to Colorado, Nevada and Southern California. Mrs. A. T. McCall of Oakland, accompanied Mrs. Genzel.

GOLDEN BEAR WITH PLENTY OF MATERIAL EXPECTED TO PRODUCE STAR GRID SQUAD

BERKELEY, Sept. 18.—Color. If there is one word that can be used to describe the University of California 1928 football team, that is it.

The Golden Bear should be strong this year—perhaps at this writing not considered quite on a par with Stanford or Southern California—but the outstanding characteristics are versatility and brilliance.

Take the ends. At the right flank is Capt. Irving Phillips, mentioned for every All-American last fall, and the outstanding end of the Pacific Coast in 1927. His teammate is Russ Avery, a giant of a man who stands even taller than his six-foot-one captain, and weighs 200 pounds.

AGGRESSIVE PLAYER The Bear skipper is an aggressive player. He fits in perfectly with the California kicking game, coming down under long punts to nip the opposition's safety man the moment the ball touches his arms.

Steve Bancroft is another individual with an arresting personality. He has played end for two years—now he has been shifted to tackle. Steve is the kind that starts forward passing rolls around the training table after a tough three hour session on the practice field.

CENTER MATERIAL

Last year California had one center—Roy Riegels. Damaged or not damaged, he had to do now "Nibs" Price has three candidates for center all in deadly earnest. Andy Miller is back from a year helping make shingles and two-by-fours out of the British Columbia forests, and Herm Fickmeyer, mainstay of the 1926 frosh line, is on the deck.

But it is behind the line where most of the California stars are due to shine. Look at some of them:

Elson, trickiest quarterback on the Pacific coast, and hero of the famous four man forward lateral pass in the Penn game last New

Polish-German Business Pact Now Imminent

BERLIN, Sept. 18.—(U.P.)—After a long interval Polish German commercial treaty negotiations will be resumed in Warsaw this week. Government circles here are confident they will result, if not in a treaty, at least in a provisional agreement which would be ratified with relief in industrial circles.

There are, in fact, only two groups of interests in Germany who are profiting from the Polish-German tariff war, now entering upon its fourth year. These are the agrarians and the mining companies in German Upper Silesia practically barred from Germany, both groups have been protected against their most dangerous competitors and both, naturally, are not overjoyed at the prospect of an early truce.

The agrarians and their political representatives, the German nationalists would like present conditions to continue indefinitely. The last Nationalists controlled German government therefore has shown little inclination to meet the Poles halfway; it finally broke off negotiations on Brooklyn.

However, the present government, representing circles who, either for business or political reasons, are anxious for a rapprochement with their Eastern neighbor, probably will do its utmost to terminate the present situation.

SEEPAGE HELD RESPONSIBLE IN BREAK OF DAM

Seepage below the drainage system is declared by district engineers to have caused the break discovered yesterday in the nearly completed Lafayette dam of the East Bay Municipal district.

Despite the intricate drainage system of tile and rock conduits throughout the dam, the five feet of water behind it caused seepage, it is said, which were broken by pressure of the earth. The \$2,000,000 structure which was planned to resist the pressure of 1,000,000 gallons of water broken and warped. The center section is torn from the ends and is fissured along the face. The break was discovered by workmen yesterday morning.

Earth at the base of the dam has buckled into gulches. On the dam itself there are crevasses five feet wide.

Neither design, construction nor material are at fault engineers assert who examined the structure today.

SMITH OPENS OMAHA DRIVE ON FARM BILL

By THOMAS L. STOKES, OMAHA, Sept. 18. U.P.—Governor Alfred E. Smith endorsed the McNary-Haugen Farm Relief bill in principle without limiting himself to the exact mechanics of that controversial measure twice passed by congress and twice vetoed by President Coolidge, in the opening speech of his presidential campaign here tonight.

"Various people have attempted to misrepresent and confuse my attitude with respect to the McNary-Haugen bill. I do not propose to leave the slightest doubt in anybody's mind on that subject," Smith declared.

"As I read the McNary-Haugen bill, its fundamental purpose is to establish an effective control of the sale of exportable surplus with the cost imposed upon the commodity benefited, for that principle, I squarely stand."

Comfort in the Living Room
Comfort in the living room . . . in the dining room . . . in the bedroom . . . and in the kitchen. Comfort! Our buying policy for 1928, as in previous years, has been guided by the watchword of COMFORT. However, it is only fair to state that "Comfort" as conceived at Schrader's does not end with restful upholstery in the living room . . . with Sealy mattresses in the bedroom . . . and labor-saving Wedgewood stoves in the kitchen. Comfort as we view it goes further and considers the color value of furniture in the home—the harmony of furniture, rugs, draperies—everything to the end of greater satisfaction and self-enjoyment in the pleasures of the home. Your home is your castle—every dollar spent in beautifying your home is worth five spent for fleeting pleasure. And every dollar spent at Schrader's more than does its duty.
